This item contains the allergen listed / is vegetarian or vegan.

TRACE

Product is produced in a plant or with equipment that also processes the allergen.

*** All sulphites present in Mexicali food items come exclusively from vinegar - in which sulphites occur naturally below the concentration (10mg/kg) to be required as a listed ingredient under law.*

GLUTEN INTOLERANCE & CELIAC DISEASE

If you avoid gluten, skip the flour tortillas. If you're highly sensitive and need us to change gloves, just let us know at the start of your order - we're happy to help.

HEADS UP *Items made with corn, like our corn tortillas (chips and crispy corn shells) and corn salsa, may contain trace amounts of gluten due to co-mingling with gluten-containing grains in the field. Our fryers are also used for products that contain gluten, so there's a chance fried items may have traces of gluten too. We can't guarantee no cross-contact.*

If you eat dairy, our shredded cheese is made with vegetable-based rennet.

Mexicali Fresh kitchens handle ingredients containing common allergens including gluten, milk, egg, soy, sesame and fish. While we take care to minimise cross-contact, we cannot guarantee that any item is completely free of allergens due to shared preparation areas and cooking equipment.

Customers with severe allergies should inform staff before ordering so additional precautions can be taken.
